

# FEDERAL ELECTION 2013 Essential Pro-Life VOTING GUIDE FAMILY LIFE INTERNATIONAL AUSTRALIA

# HOW TO USE THIS GUIDE

The aim of this voter's guide is to help you to cast your vote in an informed manner consistent with your Christian faith. It will help you to avoid choosing candidates who endorse policies that cannot be reconciled with the moral norms once held by *all* Christians. If our task was to merely select the most effective *strategy* among several morally good options, then a Christian could take one side or the other and not act contrary to their faith. But some issues concern 'non-negotiable' moral principles with no room for exceptions or compromise. This pro-life voting guide is comprised of two parts: the House of Representatives (green) and the Senate (red).

# THE LOWER HOUSE (HOUSE OF REPRESENTATIVES)

This part of the guide is green because the Lower House is colloquially known as the 'green house' owing to the colour of the leather seats in that House. The party who wins the most seats in the Lower House will form the next government. Your vote in the Lower House will inevitably end up helping either the Labor Party or the Coalition to win the election. 5 out of the 150 seats are currently represented by Independents, 1 by the Greens and 1 by the Katter Party. Even if you vote for an Independent or a Minor Party as your first preference, it will still effectively count as a vote for either Labor or the Coalition. Very often both major parties nominate less than perfect candidates in your Lower House seat. This means as you order the ballot, it is often a case of choosing the better of 2 major party candidates - or consider your ballot a vote purely for a Party and/or a Prime Minister.

In the centrefold of this document you will find the full list of the current sitting members of the Federal House of Representatives. You will be able to see who currently holds the seat in your electorate and if they have voted on any past Bills concerning the life issues. On the back page we will then focus on some 'key marginal electorates' that pro-lifers should watch closely on election night. The seats that were decided by a small margin during the last election (2010) will matter the most in this election. 'Safe seats' with a wide margin rarely change hands so they are strategically less important. You will find the size of each seat's margin in the right column of each table. Keep this guide handy on election night and it will help you to analyse the results from a pro-life perspective.

# THE 5 NON-NEGOTIABLES

The following are 5 'non-negotiable' issues to help you narrow down the list of acceptable candidates.

1. Abortion 2. Euthanasia 3. Embryonic Stem Cell Research 4. Human Cloning 5. Homosexual 'Marriage'. We should avoid, to the greatest extent possible, voting for candidates who endorse or promote intrinsically evil policies. As far as possible, we should vote for those who promote policies in line with the moral law.

# **ANTI-LIFE GROUPS**

# **PGPD**

The Parliamentary Group on Population and Development are MPs committed to the goal of population reduction. PGPD members lobby for increased funding of anti-life government programs (contraception, sex education and abortion), especially in third world countries. They are the 'death peddlers' within the Australian parliament.

# EMILY'S LIST

EMILY's List is an acronym which stands for 'Early Money Is Like Yeast'. It is a group that raises funds for radically pro-abortion female candidates, exclusively for the Labor Party. If elected, all members of the List are obliged to support pro-abortion legislation. It is crucial for pro-lifers to always oppose them at every turn. These candidates are a bio-hazard!

Many candidates are members of parties and/or groups that as a collective contravene one or more of the 5 non-negotiables. The most glaring anti-life non-party groups are detailed above - Emily's List and the PGPD (Parliamentary Group on Population & Development). It is also important to look to anti-life policies in the platform of a political party and how each party preferences their vote. Even if both of the major parties are running tainted or completely anti-life candidates in your lower house seat, some smaller parties that are fundamentally pro-life in their policies do represent a viable vote in the Senate (upper house). Please see the red section of the guide for instructions on how to vote for the Senate where, in many ways, your vote can be more powerful.

## **KEY**

Below is the list of **150** sitting *Members of Parliament* for each electorate in every state. A Strikethrough indicates that the MP is retiring. The numbers beside each member indicate a specific anti-life vote on their record corresponding to the following bills:

- 1. Euthanasia Bill (1996) **2.** Embryo Experimentation Bill (2002)
- **3.** Abortion Pill Bill (RU486) (2005) **4.** Human Cloning Bill (2006)

**5.** Same-Sex Bill (2012)

If a member is shown as blank it may be that he/she voted correctly. However, it may be the bill passed prior to their election to Parliament, and therefore their position on various life issues cannot be established.

#### N.B. SAME-SEX MARRIAGE

In 2008 a same-sex law reform bill passed with bi-partisan support, where both the major parties were not permitted a conscience vote. This bill left us one step closer to the full legalisation of homosexual 'marriage'.

The same-sex marriage bill of 2012 was voted down with only the Coalition not allowing a conscience vote. Therefore, the above tables cannot represent the individual posititions of the Coalition members on the question of same-sex marriage.

# KEY MARGINAL SEATS

# NON-PREFFERED CANDIDATE DETAILS

# ELECTORATE NAME, MARGIN & DETAILS

#### Preferred Candidate Details

# Susan Templeman (ALP) EMILY's List Candidate.

### Louise Markus (LIB)

EMILY's List Candidate.
One of the 9 Emily's List
candidates pre-selected for a
marginal seat.

#### Federal Seat of Bonner, QLD

LNP Margin of 2.8%
Brisbane inner-eastern suburbs electorate. Lost by Vasta in 2007 and regained in 2010.

#### Ross Vasta (LNP)

Has a pro-life voting record. Opposed RU486 and human cloning whilst a member for this seat from 2004-2007.

#### Rick Sarre (ALP)

University Professor in Law. 'Progressive' side of legal fraternity.

#### Federal Seat of Sturt, SA

LIB Margin of 3.6%

Vigorous campaigns waged against
Pyne by Labor in 2007 and 2010

#### **Christopher Pyne (LIB)**

# Joanne Dean (ALP)

## Federal Seat of Forde, QLD LIB Margin of 1.6%

Outer southern Brisbane electorate.

An important seat for both major parties.

#### Bert Van Manen (LNP)

Ran as a candidate for Family First in 2007. Elected for LNP in 2010. Opposed to same-sex marriage.

# SEATS OF INTEREST

#### Tony Windsor (Ind)

Elected as an independent in 2001. Handed Labor minority government in 2010 contrary to the roots of his electorate.

# Federal Seat of New England, NSW

Ind / Nats Margin of 21.5%
A National Party stronghold since first contested in 1919.

#### Sen. Barnaby Joyce (Nats)

High profile, Catholic, pro-life Senator. Switching houses to gain New England back for the National Party.

## Laura Smyth (ALP)

EMILY's List Member.
One of 2 new List candidates to gain a seat in the 2010 election.

#### Federal Seat of La Trobe, VIC

ALP Margin of 1.7%

This Liberal leaning seat should return to Jason Wood (LIB) removing an Emily's Lister.

#### Dr Rachel Jenkins (DLP)

Though no chance of election - our prediction for the highest % of the primary vote for the resurgent DLP

#### Adam Bandt (Greens)

Obviously a supporter of same-sex marriage. Gained the only House of Reps seat for the Greens in 2010.

#### Federal Seat of Melbourne, VIC

Green Margin of 5.9%
Even though we are anxious to see the
Greens removed from the house - the
only real contender is an Emily's Lister!

#### Michael Murphy (DLP)

In a seat like this, ease your conscience by giving a good minor party candidate a significant primary vote.

N.B. There are other important seats and this is just a small snapshot of some of the electorates that will decide this election. Not all the candidates in the right column are perfectly pro-life, but they certainly present pro-lifers a better option than the left column.
